What platforms can we use to bring mechanics to the player? What platforms will the game run on?</p></div></div>	<div><div>MECHANICS</div><div></div><div><p>Describe the rules of the game with components for creating game dynamics</p><p>How will we use the selected components to develop behaviors? How can we explain the mechanics to our players? How can we increase the difficulty of mechanics over time?</p><p>Examples of mechanics:</p><p>Watch this video and get 10 points Answer this survey and get expert level Complete this form and unlock this badge Buy something to complete this mission Read content before 15 minutes Recommend something and get this prize</p></div></div> <div><div>COMPONENTS</div><div></div><div><p>Describe the elements or characteristics of the game to create mechanics or to give feedback to the players</p><p>What components will we use to create our dynamics?
